

Carbide Burrs:

Long life, high quality - other shapes & sizes available upon request.

- Extremely high cutting rate and long life, can be reground repeatedly.
- Professional chip removal and excellent finish with the special standard cross N cut or NK double-cut diamond tooth pattern.
- Smooth running, especially with **SUHNER** drive tools running with precision bearings.

Carbide burrs with 1/4" shaft Type	A 0620	A 0820	A 1225	B 0620	B 0820	B 1225	C 0620	C 0820	C 1020	C 1225

Burrs

Cut #1
Standard

Cast iron, weld seams, high tensile hardened and free cutting steels.

Cut #4
Double Cut

Diamond cut results in small shavings. For alloy steels and reinforced plastics.
