

Grinding and finishing belts

Suitable for **SUNNER** belt grinders

BSGB VA

- Coated abrasive belts for ferrous and non-ferrous metals, timber & plastics.

BSGB FVV

- Non-woven nylon abrasive surface conditioning belts: fast and easy.
- For refining rough surfaces with little or no dimensional change to the work piece.

- For oxide removal, deburring, decorative finish, cleaning and conditioning, wood sanding.
- Gets the job done in fewer steps than conventional products, while generating a uniform scratch pattern.
- Available in 5 grits.

BSGB TZ

- Abrasive belt with regenerating pyramid structure.
- For hard metals and Inox.
- Work steps can be skipped: time-saving and cost-effective.
- Extra-long service life.
